Compact convenience – ideal for your office

If you're looking for a compact, convenient and easy-to-use office device that can print, copy, scan and fax, there's no better solution than the ineo 25e from DEVELOP. This multifunctional monochrome device is ideal for small teams in any kind of business.

ineo 25e with paper tray (PF-508), large desk (SCD-26L) and external job separator (JS-604)

Easy to use

Many multifunctional office devices are a devil to operate: complicated menus, too many buttons, small displays. Not the ineo 25e. This powerful system has all the document functions you need but is still easy to use. The 5.7" operating screen is large and easy to read. The menus and buttons are self-explanatory. The standard menu can be customised for fast and easy access to frequently used functions. And several useful functions, e.g. ID card copy (copying the front and back of an ID card onto a single page), save you time and effort.

How you benefit

- No time wasted in learning how to operate the device
- Faster printing, copying, scanning and faxing – a boost to productivity
- More time for your normal work

Space-saving 4-in-1 solution

Still using different devices to produce office documents? This 4-in-1 office solution is a space- and time-saving alternative. The ineo 25e prints and copies at 25 A4 pages per minute, offers various scanning functions (including a duplex document feeder), serves as a convenient fax machine and is fully network-capable.

How you benefit

- All-in-1 print, copy, scan, fax
- Cost- and space-saving multifunctionality
- Same operating principle for printing, copying, scanning and faxing

Enough paper for all your needs

Smaller multifunctional devices often run out of paper in a multi-user office. Not the ineo 25e. The standard configuration of a 500-sheet cassette and 100-sheet bypass tray for special print media can be extended to a 2,100-sheet capacity from five paper feeds.

How you benefit

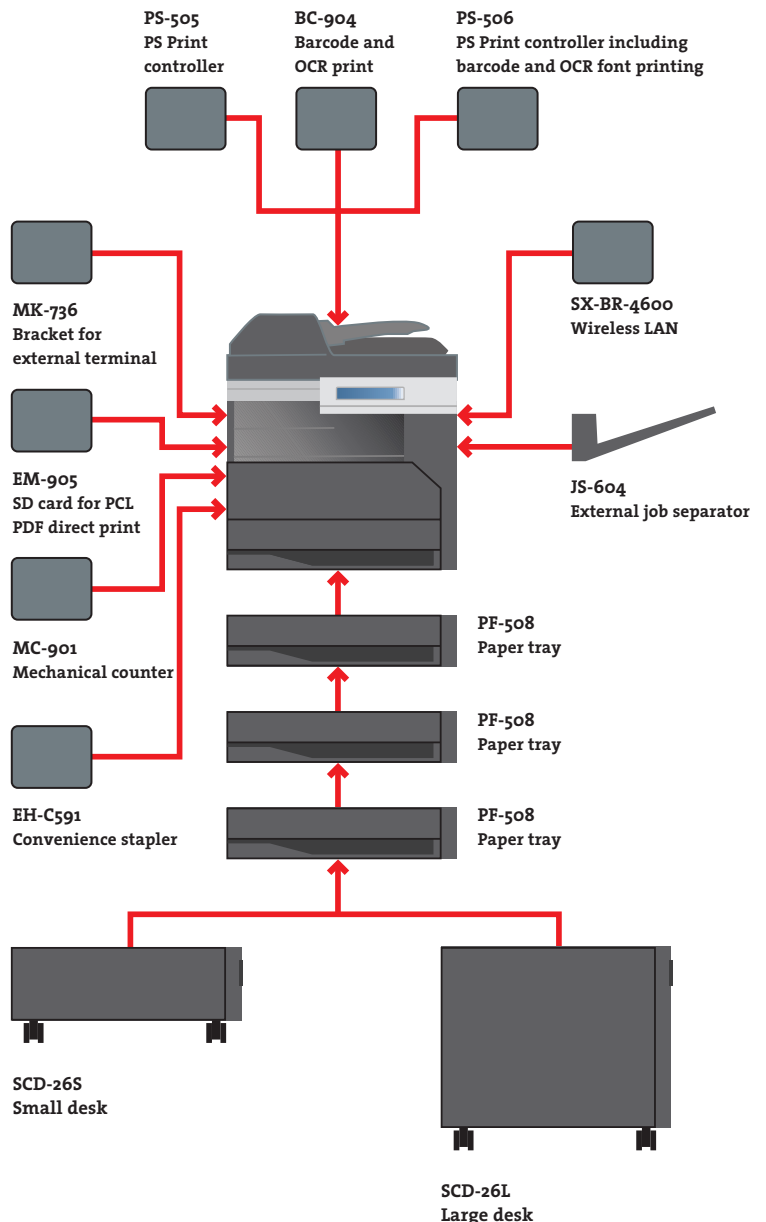

- Less frequent paper refills
- No time-wasting interruptions in your document workflow
- Convenient option for stocking different media at the same time, e.g. envelopes, thicker paper, etc.

Smart output

Multifunctional devices can cause chaos in a multi-user office when printouts, photocopies and faxes get mixed up in just one output tray. Moreover, confidential documents may even end up in the wrong hands. The ineo 25e has a number of smart output solutions to prevent such problems occurring. An additional output tray can be dedicated to nothing but faxes or photocopies, for example. And the password-protected Secure Print function ensures that no confidential documents go astray.

How you benefit

- No time-wasting searches for the right document
- Password protection for confidential documents
- Convenience instead of chaos

ineo 25e

GENERAL DATA

Type of machine

Desktop system (built-in scanner)

Printing and copying speed

> A4

Max. 25 ppm

Print system

LED

Gradation

256

Paper feeder

> Standard: 600 sheets, max. 2,100 sheets

> 500-sheet universal cassette

(A5-A4, 60-90 g/m²)

> 100-sheet bypass (A6-A4, 60-160 g/m²)

for standard paper, envelopes, OHP

Paper format

Max. 216 x 356 mm

Printable area

206 x 346 mm

Warm-up time

Less than 12 seconds

Dimensions (w x d x h)

520 x 509 x 513 mm (without options)

Weight

Approx. 24.1 kg (without options/consumables)

Power

220-240 V / 50 Hz

PRINT SPECIFICATIONS

Controller

Standard: Embedded GDI and PCL controller with 366 MHz

Optional: PostScript 3 Controller

Memory

512 MB (shared among all MFP functions)

+ 128 MB SD card

Resolution

Max. 600 x 600 dpi

Network protocols

TCP/IP (IPv4, IPv6); IPP, SNMP, HTTP, HTTPS

Emulation

Standard: GDI and PCL

Optional: PostScript 3

Interfaces

USB 2.0, USB memory, Ethernet 10/100 BaseTX

Driver

Windows Vista/7/8 (32/64)

Windows Server 2003/2008 (32/64)

Windows Server 2008 R2/2012/2012 R2

Mac OS 10.x, Unix, Linux, Citrix, SAP, AS/400

Print functions

Duplex printing, cover sheet, electronic sorting,

density adjustment, toner save mode, n-up,

watermark (only PCL, PostScript 3), secure print

SCAN SPECIFICATIONS

Type of scanning

Scan-to-email/FTP/SMB Folder, TWAIN Scan,

Scan to USB
